Gentlemen:

I sent you under separate cover, a small box containing impressions of some coins. These are all bronze with the exception of the two in the center row. The Obverse and the reverse are placed one above the other.

I should be very happy if you could send me some information as to the character, period and value of these coins, as I understand from the Art Institute of Chicago you make a practice of doing this.

The coins belong to Mrs. Olive Meade of Lake Forest.

Yours very truly,

*E. H. Bennett*

P. S. The largest coin is an English one, and has a seated figure of Brittinia.
